Summary

Over twenty years of progressively improving experience in the gathering, consolidation, translation, and reporting of data from diverse sources, with specific focus on process automation and reducing time to delivery.

Experience (Most Recent)

SSRS Reporting Developer *Remote*
Optum Workers' Comp & Auto No-Fault *Sept. 2011 – Present*
(formerly PMSI, Helios)

- Reduced monthly reporting turn-around time from two weeks to under 24 hours via automation and process enhancements.
- Managed production and maintenance of over 200 daily, weekly, monthly, and quarterly reports from Aderant Total Office for the Settlement Solutions business in SQL Server Reporting Services and Excel.
- Designed and maintained document automation templates and related code for the creation of invoices, Medicare Set Aside recommendations, and submissions to the Centers for Medicare and Medicaid Services (CMS).
- Currently assisting with transition of Pharmacy and Ancillary subscription reporting from MicroStrategy to SQL Server Reporting Services, including development, testing, and quality assurance.
- Investigated and provided recommendations for transition of dashboard and self-service reporting from MicroStrategy to Plotly Dash and Python.

Secretarial Administrator / Legacy Metrics Reporting Specialist *Tampa, Florida & Remote*
AT&T Global Network Services *Aug. 2000 – Sept. 2007*

- As Secretarial Administrator (2000–2003), provided administrative support and backup to frontline and senior management, including calendaring, travel arrangements, telephones, reporting, and other typical administrative functions.
- As Reporting Specialist (2003–2007), designed and maintained multi-geography production reports for legacy product enablement, requiring the gathering, consolidation, and analysis of data from sources including mainframe JCL, Lotus Notes, SQL Server, and text/CSV inputs.

Education

Vanguard University of Southern California *Aug. 1993 – May 1996*
B.A. cum laude in Religion

- **Coursework:** Research methodology, biblical studies including textual criticism and analysis, homiletics, disciplines of spiritual life, integrated practicum.
